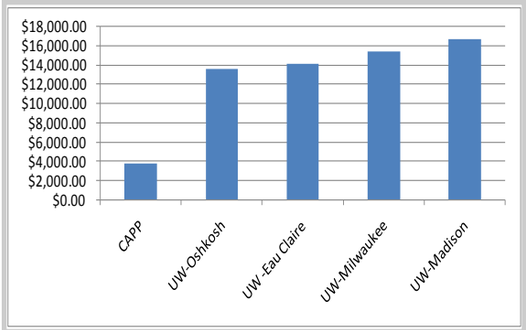
Cost Savings

CAP Program
1st Semester: $1,926
2nd Semester: $1,854
Total: $3,780*
(*Does not include books & total may vary due to courses selected.)

Compare the CAPP cost to the cost of your freshman year on campus with room & board:
(not including books)

CAPP	$3,780
UW Oshkosh	$13,604
UW Eau Claire	$14,124
UW Milwaukee	$15,368
UW Madison	$21,617



What is CAPP?

The Cooperative Academic Partnership Program (CAPP) allows qualified students to earn BOTH college and high school credits at once. All CAPP courses offered through the Pre-Health curriculum are regular offerings in the colleges and schools of the University of Wisconsin Oshkosh. They are the same courses normally taken by students during their first year. University faculty work directly with high schools to ensure that CAPP courses taught in participating schools maintain standards identical to those of sections taught on the UW Oshkosh campus. Students who register and successfully complete courses offered through CAPP earn University of Wisconsin credit, verified by an official University of Wisconsin Oshkosh transcript.

ENVISION the FUTURE

Earn college credits while still in high school

National Alliance of Concurrent Enrollment Partnerships

The UW Oshkosh CAP Program was the first program of its kind nationally accredited by NACEP in Wisconsin. NACEP standards are measurable criteria that address quality in concurrent enrollment programs to ensure that:

- Concurrent enrollment courses offered in the high school are the same as the courses offered on campus at the sponsoring university;
- Students enrolled in concurrent enrollment are held to the same standards of achievement as students in on-campus courses;
- Instructors teaching college or university courses through the concurrent enrollment program meet the academic requirements for faculty and instructors teaching in the sponsoring postsecondary institution.
