What is CAPP?

The University of Wisconsin Oshkosh Cooperative Academic Partnership Program (CAPP) provides teachers the opportunity to develop professionally while delivering rigorous curriculum to students interested in earning concurrent high school and college credit.

With more than 150 teachers and 2,500 students participating each year, CAPP is designed to provide meaningful and challenging experiences through high-quality, college-level material.

Benefits

Professional Development

Through a professional development stipend and summer workshops, CAPP teachers have the opportunity to enhance their career, meet continuing education requirements and accomplish goals.

University Resources

There are many resources available to CAPP teachers, including materials from Polk Library and 47 on-campus computer labs. CAPP teachers also receive a TitanCard, the official identification card at UW Oshkosh. The card provides teachers access to music and theatre productions, athletic games and campus community events.

Collaboration

All CAPP teachers are appointed as adjunct instructors at the University and work cooperatively with professors to implement college courses. Teaching and collaborating in a collegiate environment gives teachers professional experience unlike any other.

No Cost to Schools

Unlike Youth Options and similar programs, there are no obligatory costs associated with offering CAPP courses. CAPP offers actual college courses where students earn college credits that appear on an official UW Oshkosh transcript.

Reduced Tuition

CAPP tuition is based on the number of credit hours for each course. Enrolled students pay less than half the standard per-credit tuition rate and receive a TitanCard, which provides them the same University resources as teachers receive.

Requirements

Students

High school juniors or seniors who meet at least one of the following requirements can enroll in CAPP:

- Class rank in the top 25 percent
- GPA of at least 3.25 on a 4.0 scale
- ACT score of 24 and class rank in the top 50 percent

Other students may be eligible with approval of the University liaison, high school adjunct instructor and program director.

Teachers

Teachers with a master's degree are eligible to teach CAPP courses. For teachers without a master's degree, UW Oshkosh offers several courses and programs to help achieve content-related graduate credits.

Distance Education Options

Most CAPP courses are offered right at your high school. However, distance education, online or other delivery methods are available for schools with limited qualified teachers. In such cases, school districts may be able to share courses and resources.

More Information

For more details on how to become a CAPP instructor, scan the QR code with your smartphone or visit uwosh.edu/capp
