Remarks : If you have any concerns or questions, please see me during my office hours (scheduled or arranged) right away.  
Tutors are available free of charge in Swart 113.  
Success in using this book will depend on reading, questioning, and thinking hard about the ideas presented.  
Ask a lot of questions in class. You are encouraged to see me in my office.  
Students are subject to disciplinary action for academic misconduct, which is in UWS 14.03, Wisconsin Administrative Code.

Goals : Master the main concepts and techniques of calculus (Chapters 1-4).  
Communicate problem solutions in a clear and logically-organized, form, including the proper use of notation.  
Provide convincing arguments to show that your solutions are correct.  
Argue your solutions using multiple routes of explanation.  
Use appropriate technology to assist in visualization.  
Improve your abilities to solve multi-step and applied problems.  
Learn mathematics by reading and doing.
