LAKE MANAGEMENT INTERNSHIP

The Geneva Lake Environmental Agency is hiring an intern student to assist in its lake management efforts. Interested students will have an opportunity to not only work on one of Wisconsin's premier lakes, but also learn the "ins and outs" of local lake management. Students majoring in biology, water resource management, limnology or related fields should apply.

The Geneva Lake Environmental Agency is an inter-municipal lake management agency charged with the management of one of Wisconsin's most beautiful lakes. Geneva Lake is a 5,462-acre mesotrophic lake with a 13,000-acre watershed. It is located in south central Walworth County in southeastern Wisconsin and is one of the major recreational destinations for northeastern Illinois and southern Wisconsin.

Candidates should be familiar with the chemical, physical and biological workings of a lake and its watershed. Candidates should possess good speaking, writing and computer skills including experience with Microsoft Word and Excel. Familiarity with Access, Power Point and the Internet will be helpful. Responsibilities will include fieldwork, data analysis, report preparation, web page preparation and presentations to local governmental bodies (zoning committees, town boards, etc.).

A specific project that will be the responsibility of the intern will be aquatic plant survey with an update of the Aquatic Plant Management Plan.

The position is a full-time summer intern position running from approximately mid-May through the end of August. Exact hours, start and end dates are negotiable. Starting pay is \$10.00 per hour depending on experience and skills.

Interested candidates should send a resume, references and a list of completed coursework to:

Theodore W. Peters, Director
