

102 Physical Geology Lab:

Chapter 15: Geologic Structures & Geologic Maps

Objectives:

1. To be able to identify common geologic structures and the symbols used to represent them on geologic maps.
2. Learn to read and interpret geologic maps.

Part I: Using Geologic Maps

Do problem 2

Do problem 4a – c (*note: the color difference between the Cenozoic rocks and Precambrian rocks are subtle, so be careful*)

Do problem 5a – g
