

The Primary Colors (vs. 1-3)

By Amanda Meyer

To the tune of "On Top of Old Smokey"

Every color,
That you may view,
Is made of three colors,
Red, yellow and blue.

If you take red,
Add blue and you'll find,
That now you've got purple,
Like grapes on a vine.

Now let's try yellow,
With blue and you'll see,
These colors make green,
The leaves of a tree.

Unusual Bait

By Matthew Pustina

To the Tune of Yankee Doodle

Little Bill went to the stream,
To catch some big ol' brook trout,
He knew there were some big ones there,
But how would he get them out?

First, he tried to use a worm,
Then he tried some leeches,
Then he used his last resort:
A couple rotten peaches!

No one thought that it would work,
It sounded mighty silly,
But using old rotten produce
Caught 10 brook trout for Billy!

Instrument Tunes

By Breanna Fiedler

To the tune "Head, Shoulders, Knees and Toes"

Flutes, trumpets, harps, and bows,
harps, and bows.

Flutes, trumpets, harps, and bows,
harps, and bows.

You have your horns, and strings, percussion
and your winds,

Flutes, trumpets, harps, and bows,
harps, and bows.

Bill to Law

By Lisa Yenter

To the tune "If You're Happy and You Know It"

The Congress gets ideas for a bill
For example, one might read "You cannot kill"
They sit and they debate, themselves they
frustrate
When it's okay they send it farther up the hill.

Here the President looks and then decides
If it pass or needs an override
If he likes it then he'll sign it, throw his name on
and indite it
Then the bill goes for another ride.

Then the judges think with all their might
"Is this bill constitutionally right?"
They'll look through all the books, make sure
there are no hooks
The bill's become a law to our delight.

Healthy Living

By Katie Westlund

To the tune of "Row, Row, Row Your Boat"

Cakes, pies, chocolates are such tasty treats
But you can't eat them all of the time 'cause you
won't fit in your seat
Fruits and vegetables are very good to eat
Running and jumping and biking and swimming
make your health complete

Numbers in the Wind

By Chris Peterson

To the tune of "Blowin' in the Wind"

Well, Carlton McTarnahan's a truck drivin' man
 they say he drives 500 miles a day
 so if by 10:00 this morning he drove 200 miles
 and by noon he drove another 98
 then tell me how many miles will he have left at
 3:00

if by then he goes another 92?
 the answer my friend is one hundred and ten
 the answer is 110

Ol' farmer Willy Jackson – he's a hard workin'
 soul

his eggs are sold across the U.S.A.
 so if the sum of all his chickens equal 9 times 84
 and each one lays a dozen eggs a day
 I ask you how many eggs will our good friend
 Willy have

at the end of his hard workin day?
 the answer from you should be 9072
 the answer's 9072

So if you take 87 and divide it in half
 then multiply it 700 times
 and then you multiply again by the square root
 of 16

and divide it by the square root of 9
 then subtract 40,000 and divide by 96
 then you add 5006.48
 your answer should be 5012.73
 the answer's 5012.73

Be kind to one another and you'll see
 Be kind to one another and you'll see
 Be kind to one another and learn to help each
 other,
 then the world is a better place for you and me

Go to school and work really hard and you'll see
 Go to school and work really hard and you'll see
 Go to school and work really hard and be the
 best you can be
 then you can reach all your hopes and dreams

Eat your fruits and veggies and you'll see
 Eat your fruits and veggies and you'll see
 If you eat your fruits and veggies then you'll
 grow up strong and healthy
 If you eat your fruits and veggies then you'll see

By Amy Phillips

To the Tune of "Twinkle, Twinkle Little Star"

I will clean up all my toys,
 After I play with the other girls and boys
 Mom and dad don't like my mess
 They like my friends' mess even less...
 So I clean up after myself
 And put my toys back on the shelf...

You should make sure your Shoes are tied to

Make sure your talking mom
holds your hand so you don't go blom

you're crossing the street
you're crossing the street
