

Gardening

By Benjamin Vis

To the tune of "Pop goes the Weasel"

In a garden, two long ears, hopping out of habit.
Who is this, bouncing along? It's Peter Rabbit!
Quite a big load on his back! It's chuck full of
Carrot!
What his gardening secret was, he wouldn't
share it.

We can do this on our own! We'll need a cup or
pot or
pail and seed, what else do we need? Sun, soil,
and water!

Seasons

By Benjamin Jeske

To the tune of "Row, Row, Row Your Boat"

Summer's warm and bright,
Lots of time to play
Fall gets chilly, leaves fall down
Then they blow away

Winter's cold and dark
The ground is full of snow
Spring shows up and melts it all
Helping plants to grow

Summer comes each year
Followed by the Fall
Winter gets chased out by Spring
Each year we get them all

Small, big, all of them round!
Look what I can do,
buy something for you!
Let's give counting another try!

We Wash Our Hands

By Katie McMahon

To the tune of "Mary Had a Little Lamb"

We wash our hands all the time
All the time
All the time
We wash our hands all the time
So we don't get sick.

Wash our hands before we eat
Before we eat
Before we eat
Wash our hands before we eat
So we don't get sick

Wash our hands after we cough or sneeze
Cough or sneeze
Cough or sneeze
Wash our hands after we cough or sneeze
So we don't spread germs

Wash our hands after we play
After we play
After we play
Wash our hands after we play
So we don't get sick

We wash our hands all the time
All the time
All the time
We wash our hands all the time
So we don't get sick

Wash Your Hands!

By Valerie Yost

To the tune of "Do Your Ears Hang Low?"

Are your hands full of dirt?
Do you wipe them on your shirt?
Do your friends think they're yucky?
Are they full of nasty germs?
If you wanna be healthy
and not stay home from school,
go wash your hands!

It only takes a minute
once you learn to do it right,
Just add some soap and water
and scrub with all your might.
When you're done your hands are cleaner,
and you won't be spreading germs,
that's why we wash our hands!

Wash Your Hands

By Andy Sachen

To the tune of "The Alphabet song"

Girls and boys now they do play...
Bacteria and germs must be washed away...

When you wash your hands you will be clean..
Wash after the bathroom, ya' know what I
mean...

Wash dirty hands each and every day...
Then you can go outside and play...

Why There Are Seasons

By Sarah Hudziak
To the tune of "Camptown Races"

Verse:
Pretty flowers grow in the Spring, (doo-dah,
doo-dah)
Summer days hot weather bring. (oh, doo-dah-
day)
In the Fall the leaves turn bright, (doo-dah, doo-
dah)
And Winter time is snowy white. (oh, doo-dah-
day)

Refrain:
The Earth has different seasons,
All for one good reason.
The Earth is tilted on its side,
While around the sun it rides.

My teacher told us those are the notes
To start to sing about Halloween.

Do-mi-sol ti do, do-me-sol do
My oh my we just sang a chord
That's what my teacher told us we sang
I brought some string just incase we can't sing.

Do-me-sol **te** do, do-mi-sol do
My oh my where do we-e-e go?
This is a V chord my teacher says
Go back to the start 'cuz V goes back to I.
