

Times Tables

By Anna Lussier

To the tune of "He's got the Whole World in His Hands"

When you have the two times table, all you do
Is add the number to itself
So if you have two times one
You just add one plus one
TWO! (spoken)

When you have the two times table, all you do
Is add the number to itself
So when you have two times two
You just add two plus two
FOUR! (spoken)

When you have the two times table, all you do
Is add the number to itself
So if you have two times three
You just add three plus three
SIX! (spoken)

When you have the three times table, all you do
Is add the number three times
So if you have three times one
It's just one plus one plus one
THREE! (spoken)

When you have the tree times table, all you do
Is add the number three times
So if you have three times two
It's just two plus two plus two
SIX! (spoken)

When you have the three times table, all you do
Is ad the number three times
So if you have three times three
It's just three plus three plus three
NINE! (spoken)

Colors

By Spencer Jones

To the tune of "Twinkle, Twinkle Little Star"

Colors, colors everywhere
Look around you, here and there
Blue's the color of the sea
Red like apples on a tree
Colors, colors everywhere
Look around you here and there

Paul Revere

By Julie Ringlien

To the tune of "Yankee Doodle Dandy"

In Massachusetts was a man whose name was
Paul Revere
He's famous for his midnight ride of which we
often hear.

One night he waited by his steed for lanterns in
the belfry
to tell him how the Brits would come, one lamp
by land or two by sea.

Then Paul Revere rode through the night, calling
out a warning
He told the folk of farm and town the Brits would
come by morning.

Instrument Families

By Ben Marquardt

Sung to, "Head, Shoulders, Knees and Toes"

Woodwinds are played with reeds, played with
reeds.

Woodwinds are played with reeds, played with
reeds.

Saxophone, ,clarinet, flute and oboe

Woodwinds are played with reeds, played with
reeds.

Brasses are played with lips, played with lips.

Brasses are played with lips, played with lips.

Tuba, trombone, trumpet and french horn.

Brasses are played with lips, played with lips.

Strings are played with a bow, with a bow.

Strings are played with a bow, with a bow.

Violin, viola, cello and the bass.

Strings are played with a bow, with a bow.

Percussion's played with sticks, played with
sticks.

Percussion's played with sticks, played with
sticks.

Snare drum, bass drum, and the xylophone.

Percussion's played with sticks, played with
sticks.

Story Time

By Ashley Brown

To the tune of "London Bridge is Falling Down"

Pick a book and sit back down
Sit back down
Sit back down
Pick a book and sit back down
It is story time

Sit real nice and cross your legs
Cross your legs
Cross your legs
Sit real nice and cross your legs
It is story time

Keep both hands to yourself
To yourself
To yourself
Keep both hands to yourself
It is story time

Open your eyes and listening ears
Listening ears
Listening ears
Open your eyes and listening ears
We will now begin

The Planets

by Jennifer Leahy

To the tune of "Do you Know the Muffin Man?"

Do you know the planets, the planets, the planets?
Do you know the planets in the Milky Way?
Mercury's the hottest one, the hottest one, the hottest one,
Mercury's the hottest one cause it's closest to the Sun.
Second we have Venus, Venus, Venus
Second we have Venus which weighs 5 kilograms
Third in line is planet Earth, planet Earth, planet Earth
Third in line is planet Earth, the place we all call home.

The State of Wisconsin

By Erica Brooks

To the tune of "Here We Go 'Round the Mulberry Bush"

Today we learn Wisconsin,
Wisconsin, Wisconsin,
Lets learn about Wisconsin,
Beginning in 1848

Nickname for Wisconsin is "Badger State,"
"Badger State," Badger State,"
Nickname for Wisconsin is "Badger State,"
The state animal is the badger.

State capitol is Madison,
Madison, Madison,
Our state capitol is Madison,
But Milwaukee's the largest city.

Our dance is the polka,
The polka, the polka,
Our dance is the polka,
Dance Governor Doyle.

The Robin tweets "I'm a Wisconsin bird,
Wisconsin bird, Wisconsin bird,
I'm a Wisconsin bird
I sing high in the maple sugar trees of '49.

Wood violets feed the honeybees
The honeybees, the honeybee's,
Wood violets feed the honeybee's,
Our insect since 1977

White tailed deer eat our corn,
Eat our corn, eat our corn,
White tailed deer eat our corn,
The wild animal of Wisconsin

Now we know about Wisconsin,
Wisconsin, Wisconsin,
Moo..ve over Minnesota
We are "On Wisconsin!" "On Wisconsin," We Are!

Time for School

By Cassy Schraufnagel

To the tune of "Oh, when the Saints"

Oh when it's bright---and time for school,
You must get up and make your bed.
Change into clothes that match the weather.
And go downstairs to eat your bread.

Oh when it's bright---and time for school,
Go brush your teeth and comb your hair.
Pack up your books and put your shoes on.
Now don't forget your underwear!

Oh when it's bright---and time for school,
Go get your lunch and hug your mom.
For it is time to ride the school bus,
And greet your friends this happy morn!

The Stoplight

By Jenna Wheat

To the Tune of "Row, Row, Row Your Boat"

I'm riding down the road and see
A box with three big lights
I'll tell you what the colors mean
Now come in, listen tight!

Green means to "go, go, go,"
The red one means to "stop!"
Yellow means "now pull up slow,"
and careful not to hop.

You now know when to stop and go,
so go out and enjoy!
Teach this song everyone,
to every girl and boy!

The Bedtime Song

By Matthew Gonzales

To the tune of "If You're Happy and You Know It"

Before you go to bed you have to change,
Before you go to bed you wash your face,
You brush your teeth, you do your chores;
You plug your ears if someone snores,
Before you go to bed you have to change.

Before you go to bed take off your hat,
Before you go to bed you feed your cat.
Take a goodnight drink of water,
say "good night" to mom and father;
Before you go to bed take off your hat.

Trees Throughout the Year

By Heidi Boelk

To the tune of "The Wheels on the Bus"

Some trees in the spring grow small green buds,
Small, green buds, small, green buds.
Some trees in the spring grow small green buds,
That form into leaves.

The leaves in the summer give us shade,
Give us shade, give us shade
The leaves in the summer give us shade,
From up in the trees.

The leaves in Autumn turn golden brown,
Golden brown, golden brown.
The leaves in Autumn turn golden brown,
And fall to the ground.

The trees in the winter are so cold,
Are so cold, are so cold.
The trees in the winter are so cold,
But do they still grow? YES! (shouted)

Voices of the Choir

To the tune of "Simple Gifts"

By Matt Miles

Oh the voices of the choir there are four in all
The basses are men and are really, really tall
E2 to C4, their range is lower than the rest
And because of that, they think they're the best

Tenors sing higher than the bass
But not quite as high as the women they face
They only sing from C3 to A4
Write outside that and they won't sing anymore

The alto voice in next in this song,
Italian for "high", you never can go wrong
They sing from G3 to F5 you better know
If it's lower than that then it's just too low

Finally we have the sopranos
They sing so high they can't touch their toes
C4 to A5 is their range, you better fear
If they sing too loud they can hurt your ears

The Water Cycle

By Benjamin Jeske

To the tune of "On Top of Old Smokey"

Sometimes clouds rains softly,
And sometimes real hard,
Sometimes there's so much,
There's a lake in my yard.

Then the sun comes out,
And the winds start to blow,
Evaporation,
And the water will go.

The water gets higher,
And it starts to cool,
Now condensation,
And clouds form like pools.

Now we're back where we started,
With clouds up so high,
Next time it starts raining,
I'm sure you know why
