

**SERV CRS 422-101 Choral Music Workshop Summer 2010**  
**Dr. Kenneth Liske**

**Email Assignment**

---

**Instructions:** From the email account you would like to use for this course, please respond with answers to these questions...

1. Name
2. Phone
  
3. Email for the course.
4. Alternate email, if you have one.
5. Would you like to be added to the UWO Music Education Email List? (Please say which address to add.)
  
5. Current position, if applicable.
  
7. Please share briefly about your experience level related to teaching choral music.
  
6. Besides earning licensure, do you have any other important things you hope to gain from this course? What do you hope to learn more about?

**Note:** If you have never used campus email before, you can get help with setting up your university TitanMail (account by asking an assistant in one of the university computer labs or contacting the Academic Computing Help Desk ([acshelp@uwosh.edu](mailto:acshelp@uwosh.edu) or 424-3020). Your email address will consist of the first 5 letters of your last name, your first initial, and the last 2 digits of your campus ID number, followed by "@uwosh.edu" (for example: smithj43@uwosh.edu). Your initial default password will be your campus ID number (without the "W"), but you must change it before you log on to TitanMail for the first time.

**Wireless Internet Access:** To gain student access to the campus wireless network you must first use a computer with an internet connection to log on to TitanMail and reset your password (see note above). After resetting your TitanMail password you may set your laptop to connect to the "WOOSH" non-secure network, then open your web browser and navigate to any website. A logon screen will appear on which you may enter your campus user ID (first part of your email address) and your new TitanMail password. Contact the Academic Computing Help Desk ([acshelp@uwosh.edu](mailto:acshelp@uwosh.edu) or 424-3020) for assistance.
