For Some... the Sky is Not the Limit.

HONORING THE MERCURY 13 WOMEN.
MAY 12, 2007 * UW OSHKOSH SPRING COMMENCEMENT

Before Sally Ride, Christa McAuliffe and Eileen Collins, courageous women were setting new records and conquering new horizons. Though largely unrecognized in history, the Mercury 13 women showed their determination, strength and bravery in the Space Race with accomplishments that paved the way for generations. The University of Wisconsin Oshkosh is proud to recognize the pioneering spirit of these women with honorary Doctor of Science — *honoris causa* — degrees.
