Ballet Folklorico (traditional Afro-Brazilian dance) (evening)

Community Project in the Favela: Calabar Community School (morning)

Activities

Reception to meet host families

Data Presentation Evening at the end of program

If we arrive in mid May, we will not learn much Portuguese here as I was planning a week of intensive instruction. Therefore, the Portuguese lessons will need to be very elementary.

I expect 12 students again. I expect the program to be similar to our previous programs, and I hope Mino Rios will be the cooperating Brazil professor.

I know we may have to make some cuts to keep costs in line especially with the increase in airfare and our deteriorating dollar.

I'll be home for the next week; then we are meeting Adriano and his family in Florida for the following week.

I'm anxious to start work on this, and of course, I'm always delighted to hear from Clara! Regards, Kathleen
