

THE PRIDE OF OSHKOSH ARTIST AGREEMENT

The fiberglass lions will be delivered to the Paine Art Center and Gardens during late February and early March. The artist will be contacted when a lion is available. The artist should make arrangements for picking up a lion from the Paine by calling 920-235-6903 ext. 30.

The completed lion should be a durable permanent outdoor public sculpture. The artist should follow the "Instruction Sheet" that is provided. The artist must use materials that will withstand the weather conditions of Wisconsin and "wear and tear" for a period of ten or more years. The artist is solely responsible for using safe methods and procedures when working with fiberglass and any other materials.

The artist must deliver the completed lion to the display location (designated by the sponsoring business) on or before May 24, 2004. Within 30 days of delivery of the completed lion, the artist will receive a \$1000.00 stipend. By accepting the stipend, the artist agrees to maintain the lion in the display location until the lion is auctioned on September 25, 2004, repairing any damage from weather or vandalism.

Once completed and delivered, the lions will be secured in place with weights underneath the fiberglass base. Artists must leave the outside edge (vertical lip) of the base intact and unobstructed (can be painted). The weighted base will be attached with screws around the lip. The project organizers will supply and attach the weighted base at the display location.

Artists must leave space for a 6 x 8" plaque that will be adhered to the top surface of the base. This plaque will be supplied and will include the name of the piece, name of artist and sponsor.

THE PRIDE OF OSHKOSH may use the image of both the proposed and completed lion in print publications, website and promotional materials, and in any and all other media, whether now known or hereafter existing.
