Panelists: Dr. Tish Crawford, Dr. M. Geneva Murray, Danielle Jones, and Dr. Sylvia Carey-Butler

From our director, Geneva, "Moving can be terrifying. My heart is always in Oklahoma, because that's where my family is (including my 94-year old grandmother). But I've had to move for education and work. I've lived in Texas, DC, England and the Netherlands. All of our panelists have had to move for one reason or another. This event is to discuss the fears, successes, and positive coping mechanisms that are involved with moving."
