Here's a time lapse of construction on the Alumni Welcome and Conference Center at UW Oshkosh, a project just about a year in the making as we come to the conclusion of the video:

An inviting ambiance and convenient, riverfront location will make the Alumni Welcome and Conference Center the ideal spot for educational conferences, lectures, business meetings, corporate events and dinners, weddings and receptions. The fully equipped center will offer alumni, students, faculty, staff and community members high-quality, flexible space for many types of events.

The center will house a 460-person ballroom, four breakout rooms for 70 to 80 people and a 48-person executive board room, establishing the facility as another premier, accessible meeting and event center on campus.

The center will feature state-of-the-art meeting and conference technology, sophisticated lighting, oversized windows and on-site catering options. The facility will also be designed to U.S. Green Building Council standards, maintaining UW Oshkosh's commitment to sustainability.

In addition to its meeting and conference capabilities, the Alumni Welcome and Conference Center will be the new, on-campus home for the UW Oshkosh Foundation, Alumni Relations and Business Success Center offices. Satellite offices for other UW Oshkosh departments and shared meetings spaces will also be available.
