THE BOWMAN SCHOLARSHIP FUND

Established in 1998 by Max Bowman, professor emeritus of chemistry at the University of Wisconsin Oshkosh, in honor of his parents, Earl and Alpha Bowman, who were both in the teaching profession.

AWARDS:

- One or two awards, $500 or greater.

APPLICANT REQUIREMENTS:

- Applicants must be entering or enrolled full-time undergraduate or graduate students at UW Oshkosh.

- Applicants should have a declared major in biology, microbiology, chemistry, physics, astronomy, geology, psychology or a closely allied field.

- Applicants must submit a statement about their career plans and goals.

- Applicants must submit a description of a science project or a research paper which indicates their ability to work independently, one page maximum.

- Applicants must submit 2 letters of recommendation from persons who can provide information about their potential for scientific study.

SELECTION PROCESS:

As requested by the donor, Dr. Bowman, “preference will be given to African-American, Native American, Hispanic-American and female candidates inasmuch as it is deemed desirable to induce more students in these categories into the sciences.”

All applicants should be notified by March 15th.

DEADLINE:

- February 15

All application materials should be submitted by the deadline.
