

# GPA Calculator

This tool is to help calculate current, overall GPA, as well as semester GPA as needed. It takes into account repeats, withdrawals, and transfer credits. It can also help project future GPA in advising appointments, or for students to use at home. This tool also takes into account completion rates, which is more relevant to SAP cases.

How It Works:

- Staff/students manually enter in grades with corresponding credit amounts in the “Grade” and “Course Credits” columns, respectively. \*Currently working on formatting to copy/paste.

The screenshot shows the 'GPA/CR CALCULATOR' spreadsheet. It includes a header section with 'Student Name' and 'Student ID' fields, and 'SAP PROJECTION TOOL' labels. The main data table has columns for 'Grade', 'Course Credits', 'GPA Value', 'Grade Points', 'Credits', and 'Course Title'. Summary boxes include 'Credits Attempted', 'Total Credits Earned', 'GPA', 'CR', and 'Grade Points'. A 'Credit Amounts Go Here' section has 'Repeat/Attempt/Withdraw' and 'Transfer' columns. Two 'Quick Projection' boxes (GPA and CR) are shown on the right.

- If you so wish, you can also add the name of the courses to the “Course Title” column.
- As you enter this information, the blue “GPA Value”, “Quality Points”, and “Credits” columns will automatically populate and perform the appropriate calculations. The results of these calculations will be shown in the red boxes labeled “Credits Attempted”, “Credits Earned”, “GPA”, “CR”, “Quality Points”, and “Credits Attempted (GPA)”.

This screenshot shows the same spreadsheet with data entered. The 'Grade' and 'Course Credits' columns are filled with values in blue. The 'GPA Value', 'Grade Points', and 'Credits' columns are populated with calculated results in red. The 'Course Title' column contains course names. The summary boxes now show calculated totals: Credits Attempted = 16, Total Credits Earned = 16, GPA = 3.05, CR = 100%, and Grade Points = 48.84. The 'Quick Projection' boxes on the right also show calculated values.

- If a student attempts, repeats, or withdraws (“W”) from a course, you are to place the **credit amounts ONLY** in the **green** “Repeat/Attempt/Withdraw” column. This takes into account that the student has repeated/attempted/withdrawn from a course, which still counts toward their credits attempted, but does NOT affect GPA. (See SAP information for further explanation).
  - Once the student receives a passing grade for a repeated course, add it to the **blue** columns as a separate entry, while still keeping the credit amount in the **green** column as well.

GPA/CR CALCULATOR					Student Name:		*CR = Completion Rate			
SAP PROJECTION TOOL					Student ID:		*GPA = Grade Point Average			
Grade	Course Credits	GPA	Grade Point	Credits	Course Title	Credits Attempted	Total Credits Earned	GPA	CR	Grade Points
A	3	4	12	3	WBIS	43	33	3.05	77%	48.84
B+	4	3.33	13.32	4	BIO 105	GPA Credits Earned				
C-	3	1.67	5.01	3	COMM 111	16

Completion Rate

- If a student has transfer credit, or a course listed as “S” or “P”, place those credit amounts in the **purple** “Transfer” column. This again counts only their credits attempted, but does NOT affect GPA.

## IMPORTANT NOTES:

GPA = Grade Point Average

CR = Completion Rate

Required GPA to remain in good standing is a 2.00 UWO Official GPA

Required CR to remain in good standing is a 67% overall completion rate

This not only affects their enrollment at UWO, it also affects their Financial Aid

Financial Aid defines an “Attempted Course” as one that a student has been enrolled in for 10 consecutive days of an active semester. If they drop the course, it will **not** show up on their STAR.

UWO **does NOT** factor transfer grades/courses into a student’s GPA when considering SAP standing. Only UWO grades/courses count toward their SAP standing.

UWO **DOES** factor transfer credits/courses into a student’s CR when considering SAP standing. Both UWO AND transfer credits/courses factor in SAP standing

- NEW! Quick Projection Tools: These are designed to assist with student who have earned a larger number of credits, or those who have “attempted” courses that may not show up on STAR (the latter affects SAP Completion Rate requirements).

UW-OSHKOSH PLACEMENT AT TIME OF ADMISSION

ENGLISH : Gen Ed English Comp  
 MATH : PBIS or Math 104 & 106 or 108 or 110 or 204

ACADEMIC STANDING : GOOD

COMMENTS :

COB-Restore to Pre-Bus (08-05-11)

	OFFICIAL	GRADE	EARNED	
	GPA	CREDS	POINTS	GPA
TRANSFER INST				13.00
UWO OFFICIAL	94.00	222.51	2.367	107.00

Quick Projection - GPA		
GPA Credits	94.00	94.00
Grade Points	222.51	222.51
GPA	2.367	

o GPA Quick Projection (GPA)

- On the first page of a student’s STAR, you can find the “Official GPA Creds”, which should be placed in the “GPA Credits” box.
- Find the “Grades Points” on a student’s STAR, place that number in the “Grade Points” box.
- This properly calculates a student’s GPA – compare with STAR for accuracy
- You can then use the blue columns to add future projections for GPA.*

SAP Criteria		Status
1) Program Completion (Complete within 150% of program's required units - 180 credits for 1st degree or 225 credits for 2nd degree)	182.000	Not Meeting - over 180 credits
2) Completion of Attempted Units (67% required)		Not meeting SAP criteria
Cumulative Units Attempted	182.000	
Cumulative Earned Units	107.000	
Percentage Completed	58.79 %	
3) Official UWO Cumulative GPA (2.0 required)	2.367	Meets all SAP criteria
Fall 2015	Overall SAP Status	Acad Plan

Quick Projection - CR		
Credits Attempted	182.00	182.00
Credits Earned	107.00	107.00
Completion Rate	58.79%	

o CR Quick Projection (Completion Rate)

- In Titan Admin, go to “Main Menu” >> “UWO Financial Aid” >> “View SAP Status”
- Enter student’s information, and choose appropriate SAP term
- In Box 2 of Titan Admin, find “Cumulative Units Attempted”, and place in “Credits Attempted” box in Excel. Find “Cumulative Earned Credits”, and place number in “Credits Earned” box in Excel.
- This properly calculates a student’s CR – compare with Titan Admin for accuracy.
- You can then use the blue columns to add future projections for CR.*
