

Post-Foundation Portfolio Review: FAQ

Check the glass case (AC 2nd floor hallway between S220 and S217) for updates.

Who is required to participate in the portfolio review?

- All Fine Art majors in the BFA program, including Art Education majors.
- All Art majors in the BS or BA program.
- Passing the PFPR is required to take 400-level studio courses and graduate from UW Oshkosh with a degree in Art.

What year should I take the review?

- Art majors must take the review at the beginning of the first semester that follows their completion of the studio foundation courses (Art-102Q1 or Art-111, Art-112, and Art-114).
- Transfer students take the review in the first semester following their transfer, if their foundation courses are complete.
- Students **do not** have the option of postponing their review.

What should your portfolio contain?

- Include twelve pieces of work (at least 2 pieces from each of the foundation courses and the remaining pieces can be from foundation courses, studio courses, or extracurricular projects).
- A sketchbook.

When is the portfolio review?

- The portfolio review will be scheduled for the third Friday at the beginning of each semester. The date will be announced during the previous semester. Please plan on being available all day.
- Provisions will be made for students with classes on Friday but the student must notify the Art Department no later than one month prior to the review date.

How does the portfolio review work?

- On the day of the review, students will set up their work in a designated area, during a set time. A schedule will be posted in the glass case and e-mailed which outlines the time and location of the review. Each student will have a table and marked off wall space to display portfolio.
- You must make your own parking and drop-off arrangements, like any other day, according to University parking regulations. Contact Parking Services if you have any questions.
- Each student will be assigned a 35 minute time slot. The student has up to 10 minutes to present their work to the reviewers. Two member Faculty Review Groups will conduct the Post Foundation Portfolio Review (PFPR). The reviewers will ask any questions and then the student will leave the room. The work will be discussed and the evaluation form filled out. The process will repeat until all of the portfolio reviews have been completed.
- After the entire portfolio review process has been completed, students will be able to collect their work. Students will be emailed when the evaluation forms are available to be picked up in the Art Office AC S325.
- The PFPR is pass/retake. Your evaluation results will include your evaluation, comments, and any additional directions.

What if I have to retake the review?

- Students who have to retake the PFPR will receive information in the letter about retaking the review. A mandatory meeting with the PFPR reviewers will occur no later than two weeks after the PFPR.
- Reviewers will give specific suggestions of what the student needs to work on for the next review. Over the next two months the student develops work to address the deficiencies and must be ready to present new or revised work when retaking the review. The Review Retake will occur at the end of the semester.

Who do I contact if I have questions concerning the PFPR?

- Students on the PFPR list are contacted via e-mail. E-mail is considered an official method for communication with UW Oshkosh students. Students are responsible for the consequences of reading in a timely fashion University-related communications sent to their official UW Oshkosh student email account, per the University of Wisconsin Oshkosh Student Email Policy.
- You may talk to any of your Art Department professors and/or your faculty advisor.
- There will be an informational, question and answer session the week before the review.

Foundation terms/vocabulary

Basic Elements 2D

Line

- Line quality
- Orientation
- Actual/Implied
- Linear Networks (contour, hatching)

Shape

- Rectilinear
- Curvilinear
- Geometric
- Organic
- Representational
- Non-Representational
- Abstract
- Mass
- Volume
- Positive/Negative

Texture

- Physical
- Visual
- Invented

Value

- Scale
- Contrast
- Distribution
- Chiaroscuro

Basic Elements 3D

Form

- Volume
- Mass
- Positive/Negative
- Organic
- Geometric
- Mechanical
- Static
- Dynamic
- Kinetic
- Relief

Line

- Line quality
- Orientation
- Actual/Implied
- Direction
- Continuity
- Sight line
- Linear Networks

Space

- Positive
- Negative
- Activated

Texture

- Degree
- Characteristic
- Contradictory

2D/3D/Drawing

Components

- Form
- Subject
- Content

- Picture plane
- Plane
- Composition
- Modeling (2D and 3D)

- Figure/Ground
- Linear/Atmospheric perspective
- Overlapping
- Flat Shape Configuration
- Sighting

Color

- Hue
- Value
- Intensity
- Tone
- Tint
- Shade
- Saturation

Color Schemes

- Monochromatic
- Analogous
- Complementary
- Split complementary
- Triadic

- Additive/subtractive
- Interaction
- Emphasis

Design Principles

Unity/Variety

- Grouping
- Containment
- Repetition
- Proximity
- Continuity
- Focal point

Balance

- Weight
- Gravity
- Symmetrical
- Radial
- Asymmetrical

Scale/Proportion

- Relative size
- Exaggeration

Rhythm

- Repetition
- Organization

Emphasis

- Isolation
- Placement
- Contrast
