

**BIOLOGY OF ANIMALS 26-230****Lecture Schedule****M, W, F 1:50-2:50 PM****Spring 2014****Halsey 175**

DATE	TOPIC	READ	LAB
Feb 03	Introduction: Classification and Phylogeny	Ch 07	Microscopy, Protozoa
Feb 05	Kingdom Protista: General Characteristics	Ch 08	
Feb 07	Protozoans: Apicomplexa, Ciliophora, Amebas	Ch 08	
Feb 10	Protozoans, cont.	Ch 08	Protozoa, Porifera
Feb 12	Body Plans of Animals	Ch 02	
Feb 14	Placozoa: Porifera	Ch 09	
Feb 17	Porifera, cont.	Ch 09	Cnidaria
Feb 19	Phylum Cnidaria: Hydrozoa, Scyphozoa	Ch 09	
Feb 21	Cnidaria: Anthozoa; Phylum Ctenophora	Ch 09	
Feb 24	Phylum Platyhelminthes: Turbellaria	Ch 09	<b>LAB EXAM I (through Ctenophora)</b>
Feb 26	Platyhelminthes: Trematoda	Ch 10	
Feb 28	<b>EXAM I (through Ctenophora)</b>	Ch 10	
Mar 03	Platyhelminthes: Cestoda; Phylum Nemertea	Ch 10	Platyhelminthes
Mar 05	Intro to Pseudocoelomates, Phylum Rotifera	Ch 13	
Mar 07	Phylum Nematoda	Ch 13	
Mar 10	Phyla Acanthocephala; Entoprocta	Ch 13	Pseudocoelomates
Mar 12	Phylum Mollusca: Polyplacophora	Ch 11	
Mar 14	Mollusca: Gastropoda	Ch 11	
Mar 17	Mollusca: Bivalvia, Cephalopoda	Ch 11	Mollusca
Mar 19	Phylum Annelida: Polychaeta	Ch 12	
Mar 21	<b>EXAM II (through Cephalopoda)</b>		
Mar 24	<b>SPRING BREAK</b>		<b>Have fun!</b>
Mar 26			
Mar 28			
Mar 31	Annelida: Oligochaeta, Hirudinea	Ch 12	Annelida
Apr 02	Phylum Arthropoda: Chelicerata (Pycnogonida)	Ch 14	
Apr 04	Arthropoda: Chelicerata (Arachnida)	Ch 14	
Apr 07	Arthropoda: Crustacea	Ch 14	<b>LAB EXAM II (through Mollusca)</b>
Apr 09	Arthropoda: Insecta	Ch 15	
Apr 11	Insecta, cont.	Ch 15	
Apr 14	Phylum Echinodermata: Asteroidea	Ch 16	Arthropoda
Apr 16	Echinodermata: Ophiuroidea, Echinoidea	Ch 16	
Apr 18	Echinodermata: Holothuroidea	Ch 16	
Apr 21	Intro to Phylum Chordata	Ch 17	Echinodermata
Apr 23	Chordata: Fishes	Ch 18	
Apr 25	<b>EXAM III (through Holothuroidea)</b>		
Apr 28	Chordata: Fishes	Ch 18	Chordata
Apr 30	Chordata: Amphibia	Ch 19	
May 02	Chordata: Reptilia	Ch 20	
May 05	Chordata: Aves	Ch 21	<b>LAB EXAM III (through Chordata)</b>
May 07	Chordata: Aves	Ch 21	
May 09	Chordata: Mammalia	Ch 22	
May 12	Chordata: Mammalia	Ch 22	
May 14	<b>EXAM IV (through Mammalia)</b>		

\*Chapter references in Zoology by Miller and Harley, 8th ed. Additional reading assignments may be given in class.

LECTURER: Dr. Shelly Michalski phone: (920) 424-7082 e mail: michalsk@uwosh.edu

**Welcome to Bio 230 (Biology of Animals), the required zoology course for UWO Biology majors. I'm your lecture professor (Dr. Shelly Michalski), and I also teach Bio 108 Honors Biology and Bio 354/554 Parasitology. I am a parasitologist and study tropical disease of humans and parasites of Wisconsin wildlife.**

**Bio 230 Study hints:**

- (1) Download and thoroughly read the Biology 230 study guides from D2L. Also, use the online resources that come with the textbook to reinforce concepts.
- (2) Lightly read the assigned chapter prior to class, then look at the lecture outline, so you have some sort of idea what we are covering that day. Actively listen during lecture, ask questions for clarification.
- (3) Make a vocabulary list. Find a study partner, or several, and use the vocabulary while discussing lecture and lab notes.
- (4) Seek individual help early if you feel completely lost. That means use one of the FREE tutors from Center for Academic resources or COME SEE ME!

**Course Objectives:** Students will develop an appreciation for the diversity of animal life, the phylogenetic relationships between animal groups, and the structural features that enable animals to inhabit various habitats. Students will be expected to recall taxonomic rankings presented in lecture, be able to summarize the unifying features of animal groups and describe physiologic processes that enable life in different environments.

**BIO 230 COURSE SPECIFICS**

The lecture portion of the course is meant to introduce evolutionary relationships and unifying features of major animal groups; you will be tested on this material in the lecture exams. In laboratory, you will see many examples of representative animals from these groups, some of which are not specifically mentioned in lecture. You will be expected to identify the emphasized anatomical features of these animals, related these features to their physiology, and provide their taxonomic classifications for the laboratory exams. Do not treat lecture and lab as separate entities - use them to build on and reinforce each other!

**Text and Notes:**

The text for this course is Zoology, 9<sup>th</sup> edition by Miller and Harley. The text is available in the bookstore and should be purchased prior to first class. Also available in the bookstore is the required lab manual, a UWO – specific manual by Donna Charley-Johnson. I also highly recommend you purchase of a dictionary of word roots and combining terms, such as that by Donald J. Borror. Lecture notes are available on the UWO Desire 2 Learn site (<http://www.uwosh.edu/d2l>) in the Course Documents section.

**Graded Work:**

**Lecture**

Four lecture exams are scheduled (see syllabus for dates). Your performance on the lecture part of the course contributes 57% of your final grade. Each exam will be composed of objective and subjective questions worth 100 points. Students who must miss an exam *must contact me before the exam* to arrange for a makeup exam. Makeups of exams are not allowed except in the proven cases of severe illness of a

student or death of an immediate family member. I reserve the right to determine the date, format, and content of makeup exams. There will be no exceptions.

### Laboratory

Three lab exams are scheduled (see syllabus for dates) and will be given during the regular lab period. Your performance on the laboratory part of the course contributes 43% of your grade. Each exam will be worth 100 points. **No lab makeup exams will be given for any reason.**

### Extra Credit Opportunities

**Self-evaluation quizzes** - Extra credit quizzes will be made available throughout the semester on D2L. You may answer the questions by yourself or with any other person(s), using your text, lecture outlines and/or notes. Each completed quiz is usually worth 1 point, and the quizzes together compose 15 points. **NOTE: the score of the quiz is not factored into your final grade, your effort is factored into your grade.** D2L is configured to give you a score on each quiz and I can't change that, so that's what you'll see in your gradebook. **At the end of the semester I will manually change your score so that each quiz you've taken equals one point. So if you're trying to calculate your progress throughout the semester, add up your exam points, then factor in 1 point for each quiz you've taken.**

### Point Distribution:

Lecture Exams	4	x	100 = 400 points
Lab Exams	3	x	100 = 300 points
Total			<b>700 points</b>

#### Extra credit opportunities:

Quizzes	1	x	15 = 15 points
---------	---	---	----------------

### Grading Scale:

Students monitor their progress by checking the Grades page on the course D2L site. Simply add up the total of exam and extra credit points you have accrued, divide it by 700, and multiply by 100 to get the percentage.

<u>Percentage</u>	<u>Grade</u>
93-100	A
90-92	A-
87-89	B+
82-86	B
80-82	B-
77-79	C+
73-76	C
70-72	C-
67-69	D+
64-66	D
60-63	D-
<60	F

**Attendance Policy:**

Attendance is mandatory for each lecture and lab session (see "Course Attendance" statement in the Undergraduate Bulletin). Lab attendance is particularly important. No formal make-up labs will be provided and no 'lab jumping' will be allowed. If you know that you will miss a lab, contact lecture AND lab instructors in advance to make other arrangements. All lab sections are being taught by Donna Charley-Johnson, M.S. (charleyj@uwosh.edu).

**Outside Readings:**

Outside reading assignments may be made to supplement text/lab material. Copies of the readings will be placed on reserve or handed out in class. You may be tested on assigned readings.

**Academic Integrity:**

Students are expected to uphold the guidelines of academic integrity put forth by University of Wisconsin-Oshkosh. Violation of these standards (i.e. cheating) will result in formal written reprimand, a failing grade for the course, and possible disciplinary probation.

**Common Courtesy:**

A ringing cellular phone disrupts the learning process of your neighbors. Please turn off all cell phones and pagers prior to class. You will be treated as if you have come to a state university (which you have) and will be expected to behave accordingly in this auditorium. If you are being disruptive, talking excessively, reading the newspaper, talking on your cell phone, lost in a dream with your iPod plugged into your ears, etc., you will probably be asked to leave, maybe even asked to drop the class.

**Americans with Disabilities Act:**

UWO is committed to providing accommodations and/or services to students with documented disabilities. Students who are seeking support for a disability should contact Disability Services, 125 Dempsey Hall. Phone: 424-3100; TTY 424-1319; email [www.tts.uwosh.edu/dean/](http://www.tts.uwosh.edu/dean/)

**Contact Information:**

Instructor: Shelly Michalski, M.S., Ph.D  
Office phone: 424-7082  
Department Phone: 424-1102
