Advising Disclaimers:

- *Math courses are dependent on major. Seek advising for specific requirements and course recommendations.*
- **Grade requirements may be needed, check with advising for specifics*
- *These requirements should also include AP and other college level coursework in addition to CAPP.*
- *Course/degree/major requirements may change, for up to date information, advising is strongly encouraged prior to enrollment in courses.*
- *Retro credits for Global Languages should be considered*
- *Additional degree and major options exist, contact Advising for more details.*

Additional Program Planning Resources:

CAPP courses are UW Oshkosh Courses – they already are a part of your course history and count at UW Oshkosh!

Using CAPP courses at another College/University requires you to send your official transcript upon completion. It is highly encouraged to use the Transferology Course Transfer Tool BEFORE enrolling in courses to check equivalencies. If your institution of interest is not listed in Transferology, check out their Institutional Webpage.

CAPP offers advising to help you navigate the process of earning college credit while still in high school. By considering your interests and future goals, support is available to ensure you are taking courses to work toward obtaining your college degree.

Notes:

A business card for Jenny Woelfel, CAPP Advisor at the University of Wisconsin Oshkosh. The card features the UWO logo, the CAPP logo (Cooperative Academic Partnership Program), and contact information: email (woelfelj@uwosh.edu), website (uwosh.edu/capp/advising), and phone number (920.424.4454). A QR code is also present on the card.
