

# ACCOUNTING

Financial reporting • Decision analysis • Auditing and controls

Accounting is the language of business – and a powerful way to understand how organizations work and make decisions. As an accounting major, you'll learn how to track money, follow financial rules and help businesses make smart choices. This major prepares you for rewarding careers in areas like public accounting, business, government and more – offering diverse job opportunities and room to grow.

## MAJOR FACTS

- Internships often lead directly to full-time employment
- Strong industry connections provide valuable networking opportunities
- Coursework helps prepare students for CPA, CMA and other certifications
- One of the top universities in the nation for Uniform CPA Exam score

## EXPERIENTIAL LEARNING

Students gain experience through coursework, internships and networking with firms, corporations and government agencies – allowing many to secure job offers before graduation. They also collaborate with faculty on research projects that address real accounting challenges.
