

FINANCE

Investment strategies • Financial planning • Risk management

Finance major graduates are able to make wealth-maximizing decisions for corporations, financial institutions, insurance companies and individuals. The finance major is recommended for students interested in careers in financial management, investments, financial planning, risk management, banking, insurance and other financial services.

MAJOR FACTS

- Students manage a real portfolio of equity assets worth \$1.5 million
- Faculty includes Chartered Financial Analyst (CFA) designation holders
- High demand for finance professionals across Wisconsin and beyond

EXPERIENTIAL LEARNING

Finance students gain experience by managing real investments in the student managed endowment fund and analyzing actual firms through case studies. Internships provide hands-on opportunities to work with local companies on investment and corporate finance projects.
