Updating TurningPoint Cloud Software

Step 1: Open TurningPoint Cloud and sign in.
Step 2: From the dashboard, click on the TurningPoint Cloud logo at the bottom center of the page.
Step 3: Click check for updates. Available updates will show, and you will now be able to update the software from here.
Receiving Automatic Updates

Step 1: Open your preferences by clicking the gear icon at the bottom right of the TurningPoint Cloud dashboard.
Step 2: Highlight “Software” on the left panel.

Step 3: Check the box to automatically check for updates.
Receiving Automatic Updates

Once you have checked the box to automatically update, when new software versions are available, you will see this screen upon opening TurningPoint Cloud. You can choose to install the update, skip the update, or get a reminder to update at a later time.
Updating Receivers

Step 1: Open TurningPoint Cloud and sign in.
Step 2: Plug in your receiver, and you will see the following message. Click update license, and the receiver will update. Please note that once the receiver has been updated, it will no longer work with previous versions of the software.
