

# DELOFTING INSTRUCTIONS

1. Take the safety rail off the bed frame by doing the following:
  - a. Unscrew the 2 bolts on the safety rail
  - b. Remove the safety rail from the edge of the bed frame
  - c. Put the bolts back in the frame
2. Pull the bed away from the wall at the short ends of the bed.
3. Adjust one short side of the bed at a time.
  - a. Lift the bed frame up in the center of the frame. Adjust one leg at a time.
    - i. Push the silver button IN where the bed frame/legs meet. Set the top bed frame notch to the silver line. (there are 3 bed frame notches)
    - ii. Do the same thing to the leg 2.
  - b. Do the same thing to legs 3 and 4 at the opposite short end of the bed.
4. Place the bed up against the wall in the proper arrangement of the room.
5. Prop the mattress against the wall for inspection.
6. Place safety rail underneath the bed.

**If the bed is not adjusted back to the correct height,  
you will be charged \$100**
