Nursing Clinical Community & Families in Peru

Before You Apply

1. Write the deadline for completing the On-line Study Abroad/Away Orientation in your calendar. Failure to complete orientation before this deadline will affect your ability to participate.

2. Write all payment deadlines in your calendar. If you aren't the person who will be making payments, share this information with the person who will be.

3. Understand how seats are assigned on study abroad programs.

4. Ensure that you are eligible.

Securing Your Place
For College of Nursing International Clinical Programs, students are entered into a lottery the same way they would be for their local clinical placements. Each program has a maximum number of spots. If more students than the maximum number apply, a lottery system will be used to determine which students receive a seat on the program and the order of the waiting list.

If you are on the waiting list, you may receive a seat if applicants who have been given a seat on the program withdraw from the program.

In order to be entered into the lottery, students must complete Steps I, II, and III of the application process by the pre-determined deadlines. If the College of Nursing and the Office of International Education approve students to apply after the application deadlines have passed, these students will automatically be put on the waiting list.
