

## FERM Advisory Committee

Our Advisory Committee is a group of individuals selected by the division of Online and Continuing Education to advise our Fire and Emergency Response Management program regarding education and industry needs. Our members are partners in progress and help us to achieve our strategic goals. Collectively our committee studies issues, advises advocates, communicates, and make recommendations regarding:

- Program development plans and actions
- Program marketing
- Curricular review
- Program needs

Our members are chosen because of their interest in career and technical education, specialized knowledge and experience and are representative of the Fire/EMS/EM industry.
