1 Subject Mathematics

2 Course 104 - College Algebra (XM)

Topic Non-Topic Sections

Mathematics 104 - College Algebra (XM)

The study of the properties of elementary functions, such as polynomial, absolute value, piecewise, radical, rational, exponential, and logarithmic functions. Topics include equations, inequalities, functions, and their graphs. Students will formulate, analyze, solve, and interpret mathematical and real-world problems. The course typically would not be terminal for students, as it is designed for students with majors in business, computer science, math, and natural science. This course is int... [Show More](#)

3 Course 200 - Growth Dev & Health (XS)

Nursing 200 - Growth Dev & Health (XS)

This course examines growth and development as well as selected health entities from prenatal period through late adulthood. This will include discussion of physical growth and changes including fine and gross motor skill development. Also, included are concepts related to psychosocial development such as sensory, personality, language, gender identity, and moral development. Factors such as nutrition, sleep, exercise, environment and relationships, which are integral to achieving healthy gro... [Show More](#)
