

Lake Winnebago Region Restructuring
Project Decision

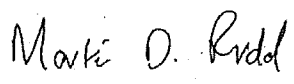

Originating Work Group or Department:	Student Affairs - Career & Professional Development
Date Submitted for approval:	9/26/18
Decision Title:	Multi-campus Handshake Implementation

Recommended Decision
Create student Handshake accounts for all three campuses, using the multi-campus tool so students on each campus can be identified by administrators and employers.

Background
Handshake is a virtual tool for students to find career resources, identify opportunities and apply for positions. This tool uses artificial intelligence to understand what the student is interested in by their career interests and what they search for and click through on the site.

Budget Implications
We've already secured funding from the access campus for each student to have an account for 18-19. Currently, the Student Technology Fee at UW Oshkosh pays for the license.

Next Steps
<ol style="list-style-type: none"> 1) Identify all students at the access campuses and create accounts for each one, since all students at UW Oshkosh already have accounts. 2) Train access campus staff to understand how students will use the tool so they make appropriate referrals. 3) Market the resource to students at the access campuses so they know how to use the system and find resources. 4) Identify and secure funding for 19-20 through student fees from all three campuses.
