

Lake Winnebago Region Restructuring
Project Decision

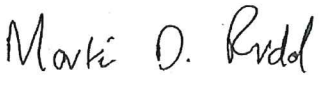

Note:	The purpose of Project Decisions is to serve as a record of the agreement of the University leadership to pursue activities, operational processes, and policies that support the “Three Campuses, One University” credo. However, they do not—and cannot—commit the University to allocation of budgetary resources or additional personnel that might be required to pursue them. Such obligations take place through separate processes within UW Oshkosh. As such, the implementation of all Restructuring Project Decisions is always subject to resource availability.

Originating Work Group or Department:	Academic Affairs, Faculty and Staff
Date Submitted for approval:	April 2, 2019
Decision Title:	Curriculum Array Authority and Purview

Recommended Decision
Continuing until the end of FY2020, there must be collaboration between departments, chairs, deans, and the Access Campus Associate Dean for Academic Affairs / campus administrator (with the Access Campus curriculum committee) to determine how many sections of which course are listed each semester, where the courses are offered, and whether sections are cancelled due to low enrollment. All current MOUs will be honored, but future MOUs should only be approved after consultation with all affected parties. Disagreements during the transition will be settled by the Provost. After FY2020, department chairs and deans will determine the array of courses offered on each of the campuses. It is expected that collaboration between department chairs, deans, and access campus representatives will take place to determine the appropriate array. Departments are responsible for the catalog of courses available for possible offering, the modes of delivery (blended, accelerated, online, NODE, etc.), and which instructors are qualified to teach the courses.

Background

Budget Implications

Next Steps	
According to the Academic Advisory Group, this recommendation needs to be revisited when long-term budgeting decisions are made or changed.
