

Lake Winnebago Region Restructuring
Project Decision

Note: The purpose of Project Decisions is to serve as a record of the agreement of the University leadership to pursue activities, operational processes, and policies that support the "Three Campuses, One University" credo. However, they do not—and cannot—commit the University to allocation of budgetary resources or additional personnel that might be required to pursue them. Such obligations take place through separate processes within UW Oshkosh. As such, the implementation of all Restructuring Project Decisions is always subject to resource availability.

Originating Work Group or Department:	Systems / Information Technology
Date Submitted for approval:	Examined by VCRG on 12/20/19
Decision Title:	Telephones

Recommended Decision

Pay the current bill, migrate the phone support for IT and cease the legacy chargeback.

Background

Voip Services were managed at CITS (shared services). The support and financing was held back but the bills are already coming to UW Oshkosh for use of hosted services. UWO IT would like to take over the management and hosting of the system, but the licensing is complicated and different to our cost model.

Budget Implications

\$37,000 from "Crosswalk Funding"
