

Lake Winnebago Region Restructuring
Project Decision

Originating Work Group or Department:	Access Campus / Information Technology
Date Submitted for approval:	03/24/2021
Decision Title:	Classroom AV Rotation and Replacement Plan

Decision

Based on a detailed study of the classrooms and meetings spaces on access campuses conducted by IT, a rotation and replacement plan associated with best practices was developed. This ensures that access campus classroom technologies more closely match the Oshkosh campus standards for equipment including projectors, digital imaging equipment and computers. Centralized funds from CITS (UW Colleges) were not returned to UW institutions for this purpose.

Background

The FY22 and ongoing base allocation is \$66,000 [Fox Cities: \$40,000; FDL \$26,000]

Next Steps

This was presented at Cabinet (March 2021) and recommended by VCRG (March 2021)
